Aims and Scope

The Journal of MacroTrends in Applied Science JMAS (ISSN 2333-0996, Online ISSN 2333-1003) aims to publish high quality articles discussing the broad trends and themes in academic research with applied implications in all areas of physical and life science: physics, chemistry, biology, agriculture, biodiversity, ecology, GIS, meteorology, waste management, aquaculture, astronomy, earth science, environment, genetics, oceanography, water, and soil. JMAS also aims to publish practitioner articles, viewpoints, and opinions on diverse topics in applied science with broad reaching implications. The target audience for JMAS includes academics researchers, practicing scientists, business executives, investors, and policymakers. Thus, JMAS encourages a multidisciplinary approach to research with applied scientific implications to society, economy, business, and overall human progress.
