

# The Journal of **Macro**Trends in Energy and Sustainability

Volume 2 Issue 1

2014

ISSN 2333-0511

**Macrojournals Editor-in-Chief**

Damir Tokic , Macrotheme/Macrojournals

**Macrojournals International Editorial Advisory Board**

Jiahui Song, Wentworth Institute of Technology, Boston, MA, USA

Mahin Esmaeil Zaei, Indian Institute of Technology Delhi, India

Amir Hosein Ghaffarian Hoseini, Universiti Putra Malaysia (UPM)

Stijepko Tokic, Northeastern Illinois University, USA

**ISSN:** ISSN 2333-0511

Issued by the US Library of Congress

**Publisher**

Macrojournals JMHM is published in-house by the Macrotheme Capital Management, LLC, a Commodity Trading Advisor. Macrotheme Capital Management, LLC was formed as a Texas Limited Liability Company on June 19, 2009. Macrotheme Capital Management, LLC became registered with the Commodity Futures Trading Commission (“CTFC”) as a Commodity Trading Advisor (“CTA”) and approved as an NFA member on July 17, 2009. Macrotheme Capital Management, LLC is registered in the state of Texas, USA as a limited liability company. The registered agent office is located at: 815 Brazos Street Suite 500, Austin, TX 78701, USA.

**Aims and Scope**

The Journal of MacroTrends in Energy and Sustainability JMES (ISSN pending) aims to publish academic and practitioner articles of interest to: a) policymakers in crafting a sustainable domestic and international energy policy; b) investors in their attempts to value energy as a commodity, as well as energy companies and energy sectors internationally; c) energy company executives at all levels of energy production and consumption, including the alternative energy; d) venture capitalists in evaluation the feasibility the energy related projects and startups; and e) research centers and organizations promoting energy related issues, sustainable development and environment. The scope of JMES is specifically related to the broader trends and themes related to energy policy, energy economics, energy production and consumption, alternative energy, energy technology and innovation, sustainable development, and environment. Thus, JMES's mission is to become a worldwide authority on pressing issues related to the global energy issues today.

# Contents

| Articles  | Page    |
|---|---------|
| <b>Thermodynamic Vapor Cycles for Converting Low- to Medium-grade Heat to Power: A State-of-the-art Review and Future Research Pathways</b><br>Bahram Saadatfar, Reza Fakhrai, Torsten Fransson | 1-25    |
| <b>Investigation of the Rheological, Thermal and Mechanical Behavior of Micro and Nano-Carbon Black Particles Filled LDPE</b><br>Najim A. Saad, Nizar Jawad Hadi, and Zahraa Imran Mousa        | 26-41   |
| <b>COMPUTER SIMULATION OF LASER RADIOISOTOPE SEPARTION SYSTEM</b><br>Mohamed El-Ashkar  | 42-47   |
| <b>The Evaluation of User Preferences: the Case of Urban Parks in Konya</b><br>Burhan ÖZDEMİR and Ahmet Tuğrul POLAT  | 48-58   |
| <b>HIGH HYDROCARBON PROSPECT IN NIGER DELTA COMPLEX, NIGERIA</b><br>Abatan O.A., Ojo, R.K   | 59-67   |
| <b>Photocapitance of Schottky Barriers on Zinc Cadmium Selenide Solar Cells</b><br>A.A.I. Al-Bassam and A.M.EL-Nggar  | 68-74   |
| <b>Optimization of collector area for solar heating</b><br>K. Kaci, O. Laouedj, M. Merzouk, N. Kasbadji ,S. Sami, S-A. Hakem  | 75-81   |
| <b>Advanced Calculations of S809 Aerodynamic Characteristics based on Potential Theory of Wing Sections</b><br>Jallal ARRAMACH, Nour-eddine BOUTAMMACHTE, Abdelfattah BOUATEM and Ahmed AL MERS | 82-99   |
| <b>ENERGY EFFICIENCY IN THE RUSSIAN NORTH: Institutional challenges and sustainability</b><br>Natalia Andreassen and Andrey Kazakov   | 100-112 |
| <b>Influence of the auxiliary system in the determination of the optimal collecting areas for domestic solar heating installation</b><br>S.Sami Mecheri, K.Kaci,O.Loudj                         | 113-118 |
